See page 3 for full details regarding the winter training

PREPARE FOR SUCCESS WITH PBI'S WINTER TRAINING PROGRAMS...

Choose either "Junior Winter Training Program" (JRWTP) ...or... Youth Pitching Healthy Program (YPHP) ...or... Both

JR. WINTER TRAINING PROGRAM

PBI's comprehensive Defensive and Offensive program.

GOALS OF THE PROGRAM

- ➔ Prepare players to enter their season at peak performance.
- ➔ Condition players skills, knowledge and execution to top personal performance.
- ➔ Educate players on injury prevention and staying healthy thru the season.

JRWTP DETAILS

The Junior Winter Training Program is a complete 50/70 training package for all position players.

SCHEDULE OPTIONS

➔ # OF MONTHS... CHOOSE 4 -or- 3 -or- 2 -or- 1

Day	Time	December	January	February	March
Tuesday	6:00– 8:00PM	12/1, 8, 15	1/5, 12, 19, 26	2/2, 9, 16, 23	3/2, 9, 16, 23, 30

STRENGTH, AGILITY, CONDITIONING... PBI consultant, Keith Cedro, former major league strength coach for the NY Mets understands the unique needs of the throwing athlete. Our strength program, designed by Keith, focuses on overall core strength, stability and physical conditioning. PBI will use kettle bells, battle ropes, medicine balls, foam rollers, dumbbells, sleds, and a detailed band program for developing maximum, responsible, throwing arm strength for our 11 & 12 year old players.

OFFENSIVE TRAINING INCLUDES... The PBI hitting program is heavily influenced by Clint Hurdle, former World Series Manager with the Colorado Rockies. PBI will focus on balance, rhythm and controlling the body throughout the entire swing. Swing path, launch angle, exit velocity will all be a focus of the offensive training.

DEFENSIVE TRAINING INCLUDES... Extensive groundball work, turning double plays, diving, slow roller, off balance throwing including the ("**Derek Jeter**") jump throw technique. Run down execution, back hand/glove side training, short hop glove approach as well as building arm strength. Outfielders will work on arm strength, ground balls, slide-catch techniques with limited fly ball training. Foot work and angles on ground balls hit to the outfield will be worked on extensively.

YOUTH PITCHING HEALTHY PROGRAM

All Pitching. PBI's premier pitching program.

Why the Pitching Healthy Program?

The professional and experienced staff and consulting team at PBI has designed the best pitching program available for today's pitching athletes. With an epidemic of arm injuries occurring constantly in baseball, we **MUST** address the reasons why this is happening and **AVOID** the training methods that contribute to increased probability of injury to our pitchers. PBI understands the demand for increased velocity in today's athlete, but it must be done properly in accordance with the athlete's age and his current physical strength and stability levels. There are several **DON'TS** when training pitchers. Let us train you in a **HEALTHY** manner to avoid injury and improve overall pitching skill and ability. **PITCHING HEALTHY.** The name says it all !!!!!!!!!!!!!

PROGRAM DETAILS

OVERVIEW: All pitchers will be taught to command their fastball. Each pitcher will work at his individual pace, until he can execute both his fastballs (2 and 4 seam) properly. Once that task is achieved, we go to the secondary pitch. Usually a breaking ball of some sort, one that best matches his arm slot and natural rotation. Slider, curveball, sweeper, cutter, etc. are all considered breaking balls. We (player and coach) will determine which breaking ball is best for the pitcher and will offer consistency with confidence. Then we focus on a third pitch, usually a change-up of some sort. We teach the physics of all the pitches and explain what factors influence the flight of the pitch. There are probably at least 10 different ways to attempt to throw a change-up, once the players understand the physics, we can then decide which grips will work best for each pitcher and the best method to achieve consistency with it, once again pairing the arm angles and look of the individual pitchers fastball as our determining factors.

This has recently been referred to as "tunneling". All pitches should look the same coming out of your hand, arm slot, arm speed, with identical body position, for maximum efficacy for each type of pitch. Then repeat it—pitch after pitch..

PROGRAM ALSO INCLUDES: Pitching mechanic drills, pick-off moves, defensive play – covering first -fielding bunts – covering home on passed balls, teach pitchers how to call their own pitches, tricks used by Major League pitchers and coaches to increase movement and command of their pitches.

For more details go to our website @ www.baseballclinics.com under 12U training.

SCHEDULE

2 sessions per week—2 hours per session

Wednesday	5:30PM– 7:30PM	12/2, 9, 16	1/6, 13, 20, 27	2/3, 10, 17, 24	3/3, 10
Saturday	10:00AM– 12:00PM	12/5, 12, 19	1/2, 9, 16, 23	1/30, 2/6, 13, 20	2/27, 3/6
